

STATEMENT OF PURPOSE

RS23465

This proposed amendment of Idaho Code Section 43-303 allows irrigation districts to hold monthly and special meetings in alternate locations within the boundaries of the district when alternate meeting locations are deemed more convenient or necessary. Because irrigation district meetings are public, certain agenda topics may attract a larger audience than the district office, designated under Idaho Code Section 43-302, can appropriately accommodate. This bill provides irrigation district boards of directors the flexibility to hold meetings in larger, more appropriate locations/venues when circumstances warrant.

FISCAL NOTE

This legislation has no fiscal impact.
